

At our 12 September 2018 GHOA meeting, we discovered that many people were having property damage and serious safety issues with kids on their motor bikes in Glenwood.

To resolve:

- Note the rules on Glenwood Lane that are posted on a sign as you enter Glenwood. These rules were created and adopted by **the community to address liability issues and to keep the community safe.**
- Ride motorbikes that are insured for liability and have a current OHV (Off Highway Vehicle) sticker. This is especially important in the summer as a **fire prevention measure. OHV approval requires a spark arresting muffler.**
- Talk to the parents/guardians, if the riders are kids, not the kids.
- Let the GHOA officers know if you have had a discussion with the parents, so that we, as a community, can know that people are addressing the issues, and can see if changes are being made.

These are issues members of the community have experienced (the safety issues appear to have diminished since parents were alerted and school started, but property damage has continued, perhaps unwittingly?):

- Motorbikes riding in the ditches, which are private property. Wheel erosion is very damaging to the ditch area.
- Motorbikes riding other than on the gravel roads where not specifically allowed (For example, unless someone's private access way has been opened for motorbikes, they should be considered off-limits.)
- Motorbikes traveling at too high a speed (at least 3 reported near-collisions)
- Motorbikes using the road for more than traveling from one place to another.
- Motorbikes passing vehicles traveling in the same direction.
- Motorbikes rounding corners at a high rate of speed.
- Motorbikes skidding or spinning wheels, sometimes next to a car (can damage the car with the thrown rocks, and does unnecessary damage to the road.)
- Ill-lit, or no lights on motorbikes at night.

Grimmett Drive and Glenwood, Grover, and Johansen Lanes are private roads which have no rules/laws enforceable by local law enforcement. We have only our respect for one another and being courteous to govern how they are used.
